Company Overview

Isotec Security, Inc. provides comprehensive engineering, development and design services focused on Site Specific and Standardized Safety Entrances, Automated Exits and Access Control Solutions controlled by PLCs. Isotec Security interlocking door Safety Entrances have the Designation Award by the Department of Homeland Security as Qualified Anti-terrorism Technologies. Isotec has provided products and services nation wide for federal, municipal and commercial customers. We provide "turn key" services and also subcontract to prime contractors. Our Safety Entrances protect the strategic assets for the Departments of Defense, Energy and Homeland Security. Our proprietary Anti-tailgating technologies have been DOE tested and approved for efficacy and deployment.

Isotec protects the most secure facilities on the planet. Our systems protect the people that safeguard the President and U.S. strategic assets, military installations, courthouses and financial institutions throughout the US. Our engineering and product design teams are experts at designing site specific risk appropriate automated security and or monitoring solutions.
